14 colours are in stock. Rest of the colour on special request. T&C apply.

## Common Uses:

- Playground Flooring
- Jogging Track
- Running Track

## Example Project Photo

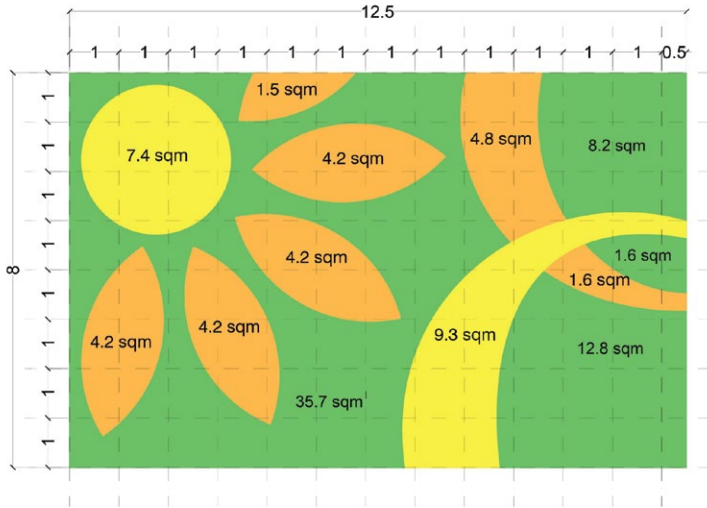

# Seamless Playground Flooring

- 10mm to 60mm EPDM Seamless Flooring

## Example Design & Surface

### Example Design by Designer

1. ALL THE DIMENSIONS ARE IN METERS.
2. AREA IN METER SQUARE.

### Final Design on Floor

The actual colour from the artwork may vary in real floor colour. The colour finishes are based on available EPDM colour granule.

## Top Surface & Thickness Example

### EPDM Top Surface: Example Colour Theme

We always suggest to mix colours in every colour theme. The solid colour has issues with joining mark on same colour, visible colour fading issue & get dirty quickly.

### 10 to 15mm EPDM Layer

Mostly use for Cycling Track, Jogging Track, Indoor Playground with less equipment height, Outdoor Fitness Flooring.

### 20 to 60mm SBR + EPDM Layer

Mostly use for Outdoor Children Playground. 25mm Thickness are most common in Malaysia with 15 to 17mm SBR base layer & 8 to 10mm EPDM Top.
