## Common Uses:

- Playground Flooring
- Jogging Track
- Running Track

## Example Project Photo

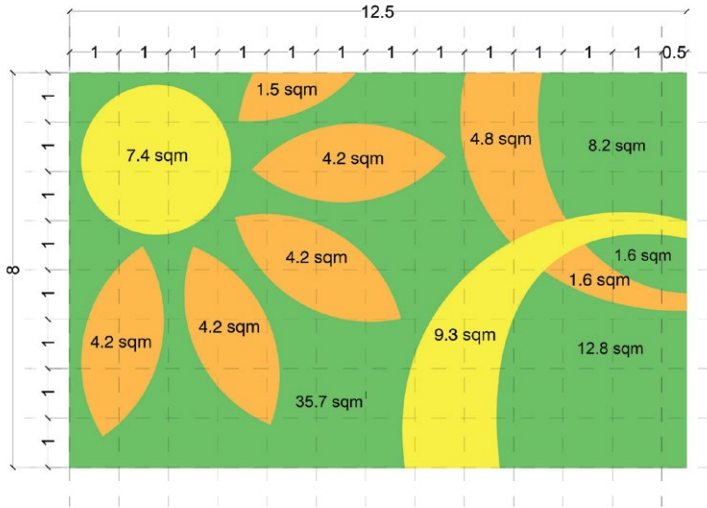

# Seamless Playground Flooring

- 10mm to 60mm EPDM  
Seamless Flooring

## Example Design & Surface

### Example Design by Designer

1. ALL THE DIMENSIONS ARE IN METERS.
2. AREA IN METER SQUARE.

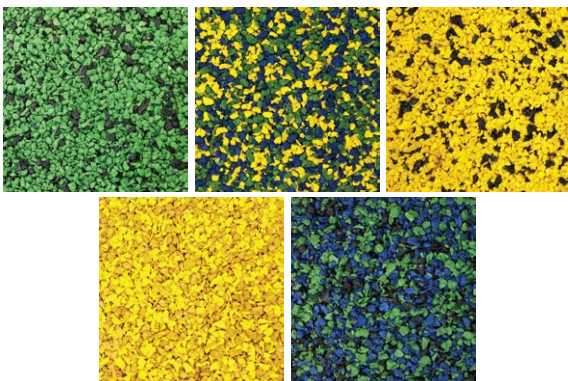

### Final Design on Floor

The actual colour from the artwork may vary in real floor colour. The colour finishes are based on available EPDM colour granule.

## Top Surface & Thickness Example

### EPDM Top Surface: Example Colour Theme

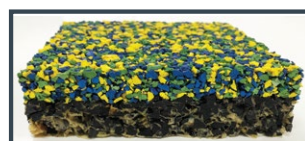

We always suggest to mix colours in every colour theme. The solid colour has issues with joining mark on same colour, visible colour fading issue & get dirty quickly.

### 10 to 15mm EPDM Layer

Mostly use for Cycling Track, Jogging Track, Indoor Playground with less equipment height, Outdoor Fitness Flooring.

### 20 to 60mm SBR + EPDM Layer

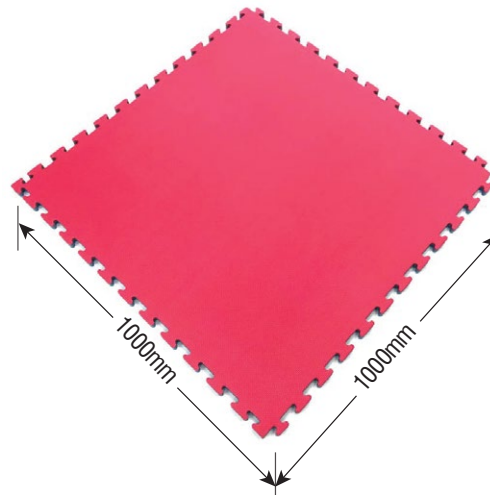

Mostly use for Outdoor Children Playground. 25mm Thickness are most common in Malaysia with 15 to 17mm SBR base layer & 8 to 10mm EPDM Top.

# 25mm Aktiv Puzzle Mat

## Reversible Jigsaw Foam Mat.

Aktiv Puzzle Mats are specially made from high-density EVA foam for smooth & anti-slip purpose. It comes with lightweight puzzle system which is flexible in handling & installing. These mats are performing well at stress, return to its original shape very quickly.

Available in 6 attractive colours, these are durable, water resistance, protective reversible foam mat for any types of indoor activities.

Close up texture
